

eRecording Solutions for Recorders

Quickly and securely receive electronic documents

Today, more than 75% of the U.S. population resides within a county that already employs electronic recording (eRecording) for land records. In order to meet the demand, recording offices are implementing eRecording processes for real estate documents to save time and money, reduce errors and rejections, and streamline their recording process.

As a pioneer in the eRecording industry, **CSC**[®] is the trusted partner of choice available to all recording offices, and the only service company to have been named a Top 50 Service Provider by *Mortgage Technology* magazine.

The CSC Difference

 **Agile:** CSC evolves alongside our clients. Our employees are empowered to help you gain and sustain a competitive advantage, year after year. We bring the best technology and a wealth of solutions to deliver the exceptional results you need, and our tenacious dedication to adapting to and leading the market is what makes us a leader—always moving forward.

 **Genuine:** We go beyond the transactional, putting genuine care into everything we do. We take a direct, open, and honest approach to our interactions with clients in the design of our solutions. As a privately held company, CSC is truly independent of any financing interests. We consider our business relationships personal, and treat you accordingly.

With CSC's eRecording services, you can:

- Integrate with your existing land records management system (LRMS)
- eRecord through our web-based application, iRecord™, even if your LRMS doesn't have an eRecording module
- Log in to a web-based reporting portal, which allows you to pull reports for different periods of time
- Automated reporting

As your unwavering partner, CSC makes it easy to:

- Reduce costs
- Receive prompt payment
- Eliminate payment errors
- Increase productivity
- Enact faster recordation
- Reduce document rejections
- Streamline accounting
- Transport documents securely
- Reduce postage

We're ready to talk.
